THE NURSERIES, BATH

Spring

1900

Seed Warehouse and Offices—

11 NORTHGATE STREET, BATH.

The Nurseries, Bath,

October 1899.

WE have pleasure in handing you our revised list of **ROSES, FRUIT TREES,** and **NURSERY STOCK** for season 1899-1900.

The stock of **ROSES** is as usual extensive in every section. **STANDARDS, BUSH,** and **POT PLANTS** are all in large supply, carefully grown and well ripened for removal. Our collection of **GARDEN ROSES** is most complete; all recent novelties, as well as the many Old-Fashioned and Botanical varieties for which we have been so long famous, are well represented; the many prizes and medals awarded us at the Royal Horticultural and National Rose Society's Exhibitions prove that our collection of these now popular Roses is a unique one.

FRUIT TREES are equal in importance to Roses in our Nurseries, and we have many acres of carefully grown trees ready for removal. The Espaliers and Trained Trees for walls, Pyramid and Bush Trees for gardens, and Standards for orchards, are all particularly good, the growth clean and well ripened. We make it a point in this department to grow only the best and most popular kinds, and purchasers may choose from the Select List we print without fear of receiving any inferior varieties. We can supply all the best market kinds of **APPLES, PEARS,** and **PLUMS** in quantity—hundreds of a single variety if required—and we shall be happy at all times to give advice to intending planters for profit as to the largest cropping and most marketable kinds, and the best modes of planting and cultivation to ensure success.

CONIFERÆ, SHRUBS, and **ORNAMENTAL TREES** we grow in great numbers, and we respectfully invite an inspection of them, as well as our large stocks of **GREENHOUSE** and **DECORATIVE PLANTS, HARDY** and **HERBACEOUS PLANTS, &c.,** of which we shall be glad to forward priced lists, or make special quotations at any time for anything required.

On pages 45 to 47 we offer some New and Rare Shrubs and Ornamental Trees; these have been selected from the most noted of Continental and American Nurseries, and we think will be of interest to planters.

Assuring you of our very careful attention to your orders at all times,

We are, Yours obediently,

GEO. COOLING & SONS.

The Home Nurseries are situated on the London Road, Batheaston, about two miles from either of the Bath Railway Stations; one mile from the Bathampton Station, G. W. Ry.; or ten minutes' walk from the Grosvenor Terminus of the Tramways.

We keep a Register of Gardeners, Bailiffs, and Stewards wanting situations, and shall be glad to give particulars to any customer requiring an experienced man.

A few Hints on the Culture of Roses.

WHEN the Plants are received from the Nursery, they should, if the weather is not frosty, be unpacked at once and the roots and tops wetted; if the ground is ready, plant at once, taking only a few at a time out of the shelter, so that the whole lot may not be exposed for any length of time to cold drying winds.

SITUATION.—A place apart from other flowers should be assigned to Roses if possible. Oblong beds not over 4 feet wide are the best, as the flowers may be cut and examined without treading on the beds. The situation should be an open one, though not exposed to high winds or currents. A south-east or south-west aspect is best, the beds being situated so as to receive the morning sun; roses like a free circulation, but are injured by cold draughts; on the other hand, closeness is apt to generate mildew.

SOIL.—That which they especially delight in is a rich fibrous loam that feels greasy when pressed between the fingers; where this is not to be had the soil should be improved—if light, by the addition of loam or even clay well worked in; where heavy, good drainage and the addition of charcoal in small quantities will help it, but in such places drainage is most important. The ground should be deeply trenched, well rotted animal manure being plentifully added; if the soil be old garden soil, add good fresh loam, rich and yellow; if heavy clay, some burned earth, road sand, or leaf-mould should be added. For Briars the loam if somewhat adhesive in quality will be all the better.

PLANTING.—Choose a fine day for the operation; rather than plant when the ground is very wet lay the plants in for a day or two and wait. Dwarf or Bush Roses should be planted with the collar of the bud, or point of union with the stock, at least two inches below the surface of the soil. Standard Roses should not be planted too deep—a few inches depth of soil above the roots is sufficient; but firmly stake each tree to prevent the wind rocking it, this last operation is essential to success. When planted amongst other subjects in the borders, a hole should be made about 18 inches deep, and large enough to contain half a wheelbarrowfull of a compost of two-thirds strong turfy loam (if it can be procured from an old pasture it is preferable) and one-third well decomposed animal manure, in the midst of this the tree should be planted and trodden in firmly; a little sandy mixture near the roots induces fresh fibre.

WATERING.—Should dry weather follow planting let the trees have a good soaking of water, and syringe the tops; especially is this necessary with those planted in spring. Large numbers which die every year from the effects of drying winds would be saved if care was taken in watering and syringing as here recommended. When coming into bloom, if weather is dry, give a good soaking once or twice a week, and at this time liquid manure may be used with advantage.

MANURING.—Roses are gross feeders, and will take almost any amount of manure. A layer six inches deep of half decayed hot-bed, laid on the beds in November and forked in the following Spring is an excellent dressing; cow or pig manure when available is also good.

PRUNING.—This should not be done at the time of planting. If the trees are planted in the Autumn, March is the best month; if Spring planted, April will be sufficiently early; the latter month is also the best for pruning the Tea-scented and Noisette kinds. The strength of the shoot must determine the extent of the shortening—if vigorous, leave it much longer than that which is weak; as a rule the stronger kinds should be left 12 to 18 inches long with 5 to 6 eyes, the weaker growing 6 inches with 2 to 4 eyes; these remarks apply mostly to Hybrid Perpetuals. Tea-scented and Noisette Roses should only have the weak growth thinned out and the strong shoots topped. The Summer varieties of Moss Roses should be only sparingly pruned. Do not let established plants of any kind of Rose become crowded with branches, but carefully thin out all small and unripened wood. In all cases prune to a bud pointing outwards.

COOLING'S Somersetshire Collections OF ROSE TREES.

Either of the following Collections, large or small, will be forwarded, **Carriage and Packing Free**, to any Railway Station in England or Wales upon receipt of P.O.O. or Cheque for the amount quoted.

These assortments are offered for the convenience of the large number who are not acquainted with the great variety of Roses now in cultivation, and who are at a loss when selecting from the Catalogue. The prices quoted are considerably less than if the kinds were individually chosen; but growing large quantities of what we know to be the best varieties, we are enabled to include them at the lower price. The Collections have been very largely sold during past years, and give very great satisfaction.

The Selection of Varieties must in all cases be left to Ourselves; purchasers selecting their own varieties will be charged the individual price for each kind as quoted in the Catalogue. But in ordering, if customers will send a list of the sorts they already have, a distinct selection shall be made; and if the nature of the soil and situation is also mentioned, only the most suitable kinds will be included.

COLLECTIONS OF ROSES FOR ROSE BEDS, &c.

- No. 1.**—One Hundred and Twenty Selected Bush Roses; Twenty-five Choice Standard and Half-Standard Roses; Fifteen Climbing or Trailing Roses—varieties carefully selected for their free blooming qualities from the choicest and newest kinds in cultivation—**One Hundred and Sixty strong Plants in all, for** 105/
- No. 2.**—Seventy-five Choice Bush Roses; Fifteen Selected Standard and Half-Standard Roses; Ten Climbing and Trailing Roses; equally choice as above—**One Hundred strong Plants in all, for** ... 63/
- No. 3.**—Fifty Bush Roses; Ten Standard and Half-Standard Roses; Five Climbing or Trailing Roses—**Sixty-five strong Plants in all, for** 42/

COLLECTIONS OF STANDARD AND HALF-STANDARD ROSES.

	A. Per 12.	B. Per 25.	C. Per 50.	D. Per 100.
No. 4. —STANDARD AND HALF-STANDARD ROSES, fine heads, clean straight stems; good sorts, carefully selected and well varied	16/	32/	60/	115/
No. 5. —STANDARD AND HALF-STANDARD ROSES, fine heads, clean straight stems; choicest varieties in cultivation, carefully selected and well varied, and including Hybrid Perpetuals, Tea-scented, and Noisette varieties, and many of the new kinds of 1897 and 1898	21/	42/	80/	150/

The foregoing Collections are strictly for our selection of varieties.

From Col. GREEN, Wrexham.—“I was much pleased with the 50 Bush Roses you sent me. They without exception flourished admirably, and we had an immense quantity of flower from them.”

THE BEST FIFTY HYBRID PERPETUAL ROSES.

To commence a Collection.

The following varieties are the most hardy, strongest growing, and most free-flowering of all the Hybrid Perpetual varieties.

No. 6.—One Strong Bush Plant of each of the Fifty kinds for 30/; No. 7.—Two Plants of each for 55/;

No. 8.—A selection of Twenty-five of the varieties for 17/; No. 9.—One dozen for 9/.

Collection No. 16.—CLIMBING OR PILLAR ROSES.

Very strong plants from open ground with long shoots for immediate effect, and most suitable varieties for climbing or pillars, including *Gloire de Dijon*, *Cheshunt Hybrid*, *Climbing Devonensis*, &c.

One dozen 10s. 6d. Two dozen 20s.

Collection No. 17.—MOSS ROSES.

We grow between thirty and forty distinct varieties of Moss Roses, this comprising all the finest Continental and English raised kinds. In all our collections we include the beautiful varieties *White Bath*, *Little Gem*, the *Crested Moss*, &c.

One dozen distinct varieties, 9s. Two dozen, 17s. 6d.

Collection No. 18—12 BEST BUTTON-HOLE ROSES, 10s. 6d.

One dozen of the most suitable Tea-Scented and Hybrid Perpetual Roses for button-holes, including *Madame Falcot*, *W. A. Richardson*, and other best yellow, pink, and deep crimson kinds.

Collection No. 19—NEW ROSES, 21s.

Fifteen of the best New Roses introduced during the past three years. We include *Purity*, the new Gold Medal pure white Garden Rose; *Laurence Allen*, the beautiful new light Hybrid Perpetual; *White Maman Cochet*, the lovely new white Tea Rose; *Dr Rouges*, the splendid new crimson climber; *Carmine Pillar*, Paul's new single pillar rose; *Madame Cadeau Ramey*, the distinct new Hybrid Tea; *R. B. Cater*, the beautiful new carmine Hybrid Perpetual; and eight others of the best of the New Roses sent out since 1896. A capital lot to replenish a collection.

PURCHASER'S SELECTION OF VARIETIES. When not less than 50 of either Dwarfs or Standards are selected by the Purchaser from the Catalogue, a Discount of 10 per cent. off the individual prices will be allowed for cash.

ROSES REQUIRED FOR BEDDING OR OTHER PURPOSES will be charged at reduced prices when not less than a dozen of one variety is ordered at once, as follows:—Varieties priced in Catalogue at 9d. each, 7/6 per dozen; 1/ each, 9/ per dozen; 1/6 each, 14/ per dozen; 2/ each, 18/ per dozen.

For COLLECTIONS OF GARDEN ROSES, see page 18.

THE classes and varieties of Roses have increased so much of late years that a Rose List arranged in the ordinary way has become most confusing and puzzling except to the most experienced Rose Grower; the amateur, who perhaps remembering only the name of a Rose, being unable to find it on account of not knowing in which section to look for it.

With this in view we have entirely re-arranged our Rose List, putting the Hybrid Perpetuals Tea-Scented, Noisettes, and Bourbons in one section, and the Miscellaneous Garden and Old-Fashioned Roses in another, and placing all varieties in alphabetical order, but attaching to each the family or class to which it belongs, so that the principal feature of the old arrangement is still adhered to.

As now compiled, an order can be made out with greater facility, and we venture to think the List will be found most useful to keep permanently for reference.

ABBREVIATIONS.

H.P. Hybrid Perpetual.—This is our finest family of Roses, owing its origin to the crossing and intermixing of Hybrid China and Hybrid Bourbon with the China, Bourbon, and Tea-Scented varieties. The Hybrid Perpetuals bloom freely throughout the Summer and Autumn, and all are highly fragrant as well as exquisitely beautiful in all colours of the rose, yellow alone excepted.

T. Tea-Scented.—This important class of Roses, distinguished from all others by the delicious fragrance and delicate tints of the flowers, should be more largely grown. For producing buds for bouquets or button-holes they are unequalled. They succeed admirably grown in the warmest and sunniest parts in the garden and abundantly supplied with water during the hot months. For planting out in conservatories or for cultivation in pots they are particularly suitable, and when only protected with glass produce flowers in great quantities far into the winter months.

The whole of our Tea-Scented and Noisette Roses are worked upon the seedling or cutting briar, which has been proved to be by far the best and most lasting stock for them.

H.T. Hybrid Tea.—A recently introduced race of Roses, being seedlings from Teas, but more or less partaking of the Hybrid Perpetuals with which they have been hybridised; all are very free flowering, and fine Autumnal Roses.

N. Noisette.—The Noisettes are a fine class of Roses, blooming mostly in very large clusters throughout the Summer and Autumn, and are generally very free bloomers. Many of them make very fine Pillar Roses. In pruning them the old wood should be thinned out and the new wood left nearly full length.

B. Bourbon.—This is a charming family of Autumn-blooming Roses. They are free and continual bloomers, bright in colour and fine in form, with bright shining foliage. For beds they are univalued, for when established they seldom receive any injury from the winter. Require rich soil and moderately close pruning.

STANDARD ROSES are upon stems from 3 to 4 ft. in height. **HALF-STANDARDS** are upon stems from 2 to 2½ ft. in height, **BUSH or DWARF ROSES** are either upon their own Roots or Budded a few inches higher.

Where the price of a Standard is not affixed, the variety cannot be supplied as such this season.

Varieties printed in larger type are those recently introduced; the descriptions given are those of the raisers.

Part I.—HYBRID PERPETUALS, TEA-SCENTED, NOISETTE, AND BOURBON ROSES (in Alphabetical Order).

*In this section are included all the best exhibition varieties, those marked thus * being especially recommended.*

1 6	0 9	*Baron de Bonstetten	HP	velvety blackish crimson, an improved <i>Monsieur Boncenne</i> , a fine rose.
...	0 9	Baronne Gonella	B	bright cerise, shaded rosy bronze.
...	0 9	*— Haussman	HP	clear earmine crimson, beautifully imbricated.
1 6	0 9	*Baroness Rothschild	HP	light flesh-blush, immensely large, perfect and globular shape.
1 6	0 9	*Barthelemy Joubert	HP	bright cherry-red, large and full, very effective.
1 6	0 9	*Beauty of Waltham	HP	bright rosy crimson, fine recurved form.
2 0	1 0	*Belle Lyonnaise	T	deep canary yellow, of perfect form, one of the best yellow climbers.
2 0	1 6	*Belle Siebrecht or Mrs W. J. Grant	HT	solid pink, of the richest shade; flowers are large and beautifully formed, of long tapering shape and high centre.
...	2 0	BERYL	T	deep golden yellow, buds long and perfectly shaped; a lovely new tea rose, flowering in great profusion and continuously throughout the season, charming as a button hole flower, and for table decoration.
...	7 6	*BESSIE BROWN (A. Dickson & Sons)	HT	creamy white, very highly perfumed, of perfect form, and immense size and substance; a distinct and good new exhibition variety. Awarded National Rose Society's Gold Medal, 1898.
1 6	0 9	*Bessie Johnson	HP	blush white, a superb free hardy rose.
...	3 6	BILLIARD AND BARRE (F. Pernet Ducher)	T	golden yellow, superb in bud and when half open.

Stds. or ½ Stds.	Dwf. or Bush.	Name.	Class.	Description.
s. d.	s. d.			
1 6	0 9	*Black Prince	HP	velvety crimson, beautifully shaded with black.
1 6	0 9	Boule de Neige	HP	pure white, centre delicately shaded with cream, flowers of beautifully imbricated form.
2 0	1 0	Bouquet d'Or	T	deep yellow, coppery centre, strong grower, and free flowering
2 0	1 0	*BLADUD (<i>Cooling</i> 1896) ...	HP	silvery white, centre pale blush pink; a very distinct and beautiful light coloured rose, fine for exhibition or for bedding as it is one of the best of all autumnal flowering varieties.
2 0	1 6	*Bridesmaid	T	deep pink, an improved <i>Catherine Mermet</i> , more constant and keeping its colour without fading.
...	0 9	*Brightness of Cheshunt ...	HP	peculiar vivid brick-red, approaching scarlet.
1 6	0 9	*Camille Bernardin	HP	light distinct crimson, often lined with white, well imbricated; a grand rose.
2 0	1 0	*Captain Christy	HP	light salmon-flesh, perfectly distinct from all other varieties in colour; a grand rose.
1 6	1 0	— Hayward	HP	intense bright carmine crimson; very free and distinct.
2 0	1 0	*Caroline Kuster	N	canary yellow, outer petals pale lemon, highly fragrant.
2 0	1 0	— Testout	HT	clear bright rose, large and double; very beautiful.
2 0	1 0	*Catherine Mermet	T	light flesh-coloured rose, charming open shape, one of the finest Teas.
...	0 9	— Soupert	HP	white shaded with rose, of good form.
...	1 0	Celine Forestier	N	fine bright yellow, highly fragrant, abundant bloomer.
1 6	0 9	*Charles Darwin	HP	rich brownish-crimson, perfectly reflexed and imbricated.
...	0 9	— Lamb	HP	soft cherry rose, very bright.
1 6	0 9	*— Lefebvre	HP	fine bright red, centre purple-shaded, large and globular, a superb rose.
...	1 0	Charlotte Gillemot	HT	ivory white; flowers large, of perfect imbricated form, very free flowering.
...	1 6	Clara Watson	HT	pearly white, centre tinted pale rosy peach, very free-flowering.
2 0	1 6	*Cleopatra	T	pale pink, edged with bright rose, broad smooth petals, fine and distinct.
...	1 0	Climbing Devoniensis	T	creamy white, with bright salmon-pink centre, one of the best climbing varieties.
1 6	1 0	*Clio	HP	flesh colour, shaded in the centre with bright rosy-pink; flowers very large and of fine globular form.
...	1 6	Cloth of Gold	N	yellow, beautiful in form, fine climber, but a shy bloomer.
...	1 0	*Comte de Nantueil	HP	deep rosy pink, fine cup shape, good exhibition variety.
2 0	1 6	— Henri Rignon	HT	coppery yellow, centre rosy salmon; a seedling from <i>Baroness Rothschild</i> crossed with <i>Ma Capucine</i> .
1 6	0 9	*— Raimbaud	HP	bright crimson, fine shape and form, one of the best reds.
...	0 9	*Comtesse Cecile de Chabillant	HP	beautiful satin rose, flowers very compact and perfect, superb.
2 0	1 6	*— de Nadaillac	T	bright flesh-coloured rose, coppery yellow base of petals; most distinct and effective.
2 0	1 0	*Corinna	T	flesh colour, shaded with rose, suffused with tawny copper; very beautiful and distinct.
...	1 6	Countess of Caledon	HT	rich carmine rose, blooms large, of great substance, and of perfect form.
...	1 0	— de Frigneuse	T	canary yellow, large and of fine form.
...	1 0	*— de Ludre	HP	carmine red, perfect cupped shape.
2 0	0 9	*— of Oxford	HP	brilliant shaded carmine, velvety flowers, large, full, and cupped.
2 0	1 0	— de Panisse	T	bright flesh, splashed with coppery rose; distinct.
...	1 0	*— Riza du Parc	T	metallic rose, changing to pink, very distinct.
...	1 0	— of Pembroke	HT	soft satin-rose, flowers of fine form.
1 6	0 9	*— of Rosebery	HP	brilliant carmine rose, large and full, finely cupped.
1 6	0 9	*— de Serenye	HP	delicate rose, shaded bright rose, flowers, large, full, and fine <i>Centifolia</i> form.
...	0 9	*Crown Prince	HP	bright purple, shaded with lurid crimson, very floriferous, a most effective garden rose.
...	1 0	Crown Princess Victoria ...	B	creamy white, inside sulphury yellow; a sport of the old favourite <i>Souvenir de Malmaison</i>
...	2 0	DAISY	HT	rosy pink, suffused silvery pink, a very distinct and beautiful rose; it is perfectly formed, and very fragrant.
2 0	1 0	*Danmark	HT	rosy pink, globular in shape, of good substance, and free growth
...	1 0	*David Pradel	T	pale rose and lavender, a distinct and beautiful Tea.

Stds. or ½ Stds.	Dwf. or Bush.	Name.	Class.	Description.
s. d. 2 0	s. d. 1 6	*Devoniensis	T	creamy white, globular, sometimes tinted with pink, highly fragrant.
...	1 0	Distinction	HT	shaded peach of a peculiar tint difficult to describe.
...	0 9	*Doctor Andry	HP	bright red, shaded crimson, imbricated form, one of the best.
2 0	1 6	*— Grill	T	coppery yellow, shading to clear rose, very distinct and beautiful.
...	0 9	— Hooker... ..	HP	rich scarlet crimson with violet shading, distinct and good.
2 0	1 0	*— Sewell	HP	maroon-crimson, back of petals bright red, distinct and beautiful.
...	0 9	Duc d'Orleans	HP	bright vermilion, shaded cherry carmine
1 6	0 9	*— de Rohan	HP	bright shaded red, large and full, deep globular form.
1 6	1 0	*— de Wellington	HP	dark crimson, large and full.
...	1 0	*Duchess of Albany... ..	HT	deep pink, in the way of <i>La France</i> , but deeper in colour, and more expanded in form.
...	1 0	— d'Auerstadt	T	pale yellow, the buds with light tint of nankeen, a strong climbing variety.
1 6	0 9	*— of Bedford	HP	fiery crimson, a most brilliant colour, globular shape, large and full.
...	0 9	— de Caylus	HP	clear carmine, very full and distinct.
1 6	1 0	*— of Fife	HP	beautiful soft silvery pink, large, full, and of good cupped form, a sport from <i>Countess of Rosebery</i> .

CUT ROSE BLOOMS.

During the summer months, from about the 20th of June until September, we supply Cut Rose Blooms for Dinner Table Decorations, &c., price 1s. 6d. per dozen, 10s. 6d. per 100, 84s. per 1000, including packing and carriage by rail or post. At other times of the year we shall be pleased to quote prices; we have a full supply of Rose Blooms available nearly all the year through.

GARDEN & OLD-FASHIONED ROSES.

WE have again been most successful in our exhibits of Garden Roses at the National Rose Society's and Royal Horticultural Shows during the season, proving that our collection of these popular varieties is a unique one. For thirty years past we have kept good our stock of the old-fashioned and botanical varieties of Roses which have of late years come so much into favour, and when to these are added the many beautiful novelties recently introduced, it is in this section that will now be found the most showy and useful Roses for garden decoration and growing for cut flowers.

AWARDS FOR GARDEN ROSES IN 1899.

- June 13—Royal Horticultural Society, AWARD OF MERIT, New Garden Rose, "Purity."
 " 13— " " " " " " " " "Cooling's Yellow Noisette."
 " 27—National Rose Society, Drill Hall, FIRST PRIZE, 36 bunches Garden Roses.
 " 28—Bath Rose Show, FIRST PRIZE, 18 bunches Garden Roses.
 July 1—National Rose Society, Crystal Palace, SECOND PRIZE, 36 bunches Garden Roses.
 " 24—Royal Horticultural Society, BANKSIAN SILVER MEDAL, Collection of Garden Roses.

From the "Journal of Horticulture," June 29, 1899.—"The Garden Roses made quite a show in themselves. Messrs Geo. Cooling & Sons, Bath, were first with a grand exhibit."

From the "Gardeners' Chronicle," July 1, 1899.—"The Garden Roses made much the finer display. The premier class was won by Messrs Geo. Cooling & Sons, Bath, a firm who have a fine reputation for the successful cultivation of this type of Rose; it was a very representative collection."

THE BEST FIFTY GARDEN DECORATIVE ROSES.

The following is a selection from the various classes of Garden and Old-Fashioned Roses and would make a good representative collection. Nearly all the varieties which have been exhibited in our winning stands are included. The most suitable varieties for Climbing and Pillars are marked c.

NEW GARDEN ROSES.

The following are the most distinct of the many beautiful new varieties of Garden Roses recently introduced—Purity, Ards Rover, and Psyche, as Climbing and Pillar varieties; and Cooling's Single Crimson Bedder, Souvenir de Catherine Guillot, and Sunrise as Bedding Roses are especially valuable.

ARDS ROVER (*A. Dickson & Sons*), a most distinct and valuable addition to climbing and pillar roses; colour crimson shaded maroon, producing large flowers of great substance.—Each 2s. 6d.

COOLING'S SINGLE CRIMSON BEDDER, a beautiful new single rose which flowers throughout the season, and is we believe the first perpetual flowering single rose yet introduced; colour glowing crimson, flowers of large size and produced in clusters, and lasting a long time in the cut state; it is of compact habit, and for bedding or cutting this new garden rose is a great acquisition.—Each 1s. 6d.; per doz. 15s.

DELICATA (*Cooling & Sons*), an exceedingly pretty and distinct new Rugosa, clear soft rose coloured flowers of good size and double, blooming continuously and in clusters, and delicately perfumed; has been much admired by all who have seen it.—Each 1s. 6d.

DAWN (*Paul & Son*). Hybrid Tea; a beautiful new rose which has been shown in fine condition; it is described by the raisers as a seedling from *Caroline Testout*, crossed with a Bourbon, producing large semi-double flowers of tenderest rosy pink colour, shot with silvery rose, pretty in the bud; the foliage is bright green, and it will form bushes 6 feet high; it is very free in flowering; it thus combines all the good qualities of the Bourbons and Hybrid Teas.—Each 2s. 6d.

PSYCHE (*Paul & Son*), described as the first English raised seedling from *Turner's Crimson Rambler*, it is of vigorous rambling growth, and produces large bunches of flowers with from 8 to 10 blooms of a pale rosy pink suffused at the base of the petals with salmon and yellow. Award of Merit of the Royal Horticultural Society.—Each 5s.

PURITY (*Cooling & Sons*), this beautiful new Rose, which is the first English raised garden variety, awarded the National Rose Society's Gold Medal, is a decided acquisition. In introducing it, we believe we are offering one of the best new roses of late years. As a garden rose, or as a rose to grow for cutting, it is equally desirable. The colour is pure white with a faintly flushed centre; it is of medium size and of perfect shape, is of semi-climbing habit, and appears to require only slight pruning. One of its chief characteristics is its earliness of flowering; for the past two seasons our plants of it have been a mass of bloom early in June, long before any other double rose in the Nursery has been out. Awarded Card of Commendation, National Rose Society, 1879; Gold Medal, Crystal Palace, National Rose Society, 1898; Award of Merit, Royal Horticultural Society, 1899.—Strong Plants, 2s. 6d. each; Six for 14s. A few Standards, 3s. each.

From "Gardening Illustrated," July 30, 1898.—"Unquestionably a beautiful novelty, and deservedly received the Gold Medal of the National Rose Society on July 2nd. It commences to unfold its delicate blossoms earlier than any other double rose, and to florists and gardeners who have many demands for cut roses this variety will be a great boon."

SOUVENIR DE CATHERINE GUILLOT. Tea; a charming new and distinct garden rose, coppery carmine, centre shaded orange, flowering as freely as a China. A very beautiful new rose, which has been much admired in our winning stands this season.—Each 2s.

SUNRISE. Tea; a lovely new variety, unique in its colouring, the outer petals being reddish carmine shading to delicate fawn and pale salmon within, the open blossoms of a pleasing yellow; it is free and perpetual in flowering, and altogether an attractive and distinct new Rose. Awarded Gold Medal, National Royal Society, July 1898.—Each 5s.

*One Strong Plant of each of the above New Varieties 21s.
Carriage Free.*

GARDEN AND OLD-FASHIONED ROSES—General Collection.

Recent introductions are printed in bold type.

Lord Penzance and other Briars, Moss Roses, Single Roses, and Fairy or Miniature Roses are given under their separate headings, and follow these.

Belle des Jardins. A distinct striped rose, bright purple, striped white	0 9	Chenedole. Brilliant glowing crimson; a fine pillar rose	0 9

From the "Gardeners' Chronicle,"—"Messrs Cooling's was a magnificent collection, there was not a variety that was not well shown; it is seldom such an exhibition of Garden Roses is made."

GARDEN AND OLD-FASHIONED ROSES—continued.

	Each—s. d.		Each—s. d.
Cheshunt Hybrid , cherry carmine, large and full, a very excellent and distinct red climbing rose	1 0	DUKE OF YORK . A new China Rose of great merit, colour bright pink shading to rosy scarlet, sometimes the petals are edged and tipped with white; deliciously fragrant and free flowering; very beautiful for a bed of one kind	1 6
Extra sized plants in pots, 2/6 to 3/6 each.		Enchantress . Tea; creamy white, slightly tinted with buff in centre, very free and good	1 6
CLAIRE JACQUIER . Nankeen yellow, charming, little flowers, produced in large clusters, a rampant climber, and excellent for trellises and arches	1 6	Eugene Beauharnais . Brilliant amaranth	0 6
Clynophylla plena . An old but rarely met with variety, beautiful for rockwork or the wild garden; flowers clear satiny-blush colour, semi-double, foliage bright glossy green	1 6	EUPHROSYNE (<i>The Pink Rambler</i>), brilliant carmine when half open, bright red as it expands; numerous yellow anthers give the flowers a charming effect; an excellent rambling rose	1 0
CLIMBING WHITE PET . A very pretty novelty, a strong vigorous growing variety of the <i>White Pet</i> , producing large clusters of charming small white flowers	1 6	Extra size, 1/6 and 2/6.	
Commandant Beaurepaire . Bright rose striped with purple and violet, large and full	1 0	Fabvier . Deep scarlet, sometimes striped; semi-double... ..	0 9
Coupe d'Hebe . Bright flesh pink, perfect and beautiful	0 9	Felicité Perpetué . Creamy white, flowers in clusters; a beautiful old evergreen climber	0 9
Cramoise Superieure . Rich glowing crimson; a very beautiful China rose, fine for bedding	0 9	Fellenburgh . Dark crimson China	0 9
Crimson Bedder . H.P., scarlet and crimson, very effective and lasting, an excellent rose for a bed of one kind, very free flowering	0 9	Fulgens . Bright crimson, large and double	0 9
CRIMSON RAMBLER . This splendid crimson climbing variety is in great demand; it is almost evergreen, and the foliage is of a bright glossy green colour, forming a pleasing and striking contrast to the rich colour of the flowers which are produced in large trusses upon every growth	1 0	GARDENIA . A new American variety; a cross between <i>Wichuriana</i> and <i>Perle des Jardins</i> , bright yellow, and when open cream colour; flowers produced singly on long stems; in shape similar to the Cape Jessamine; delightfully fragrant and free	7 6
Extra strong with long shoots, 2/6 and 3/6.		Gloire de Dijon . This well-known old rose is one of the best for climbing in exposed positions. We have extra large plants in pots with long shoots	2/6 and 3/6 1 0
Daniel Lacombe . Large clear yellow, flowers in clusters, an excellent hardy climbing rose	1 0	Gloire de Rosamanes . Bourbon; deep crimson, semi-double, produced in large branched clusters	1 0
THE DAWSON ROSE . An American variety sent in the first instance to Kew; it sends out in all directions long arching fountain-like sprays of semi-double flowers of a soft shade of pale rose, leaves shining dark green	1 6	GRAND DUKE ERNEST LUDWIG (<i>Dr Muller</i>), Hybrid Tea; carmine in colour, large and full, climbing variety; said to be a seedling from <i>Marechal Niel</i> crossed with <i>General Jacqueminot</i> , the flowers in bud and shape resembling the former variety	2 6
De Meaux or Pompon (<i>The Miniature Provence</i>). Pale rose, very small and double	0 9	GRUSS AU TEPLITZ . Brightest scarlet crimson, very free flowering and first-rate, a beautiful garden rose	1 6
De Meaux or Pompon (White), an exceedingly pretty pure white variety of the above	1 0	GUSTAVE REGIS . A beautiful garden rose, long pointed buds of canary yellow with deeper centre; a handsome pillar rose	standards, 2/6 1 6
Dr Rouges . Tea; deep red with orange coloured shading, a distinct climbing variety. This variety has been very fine with us this season, and has been much admired in our winning stands of Garden Roses	standards, 2/ 1 6	Hebe's Lip . Almost single, white with pieotee edge of purple, a distinct and beautiful garden rose	1 0
Dometil Bocard . One of the prettiest striped roses; flesh white, with bright rose and lilac stripes	1 0	HELENE Polyantha; beautiful delicate violet, buds carmine red, from 20 to 50 in a truss; a seedling from <i>Crimson Rambler</i> , the flowers being much larger than the parent	2 0
Dundee Rambler . White edged pink, very quick in growth	0 9	Helvetia . An almost thornless <i>Rugosa</i> with long pointed leaves	1 6
		Institutrice Moulin . Deep crimson, long pointed bud, a pretty new China variety	1 0

Rubrifolia. Small pale red flowers, with red wood and red leaves, a fine ornamental climber	1 0	Souvenir de Malmaison. A fine old garden rose, doing well in almost any situation, and one of our finest autumn roses; clear flesh in colour Standards 2/	1 0
Ruga. Pale flesh, large and double, very hardy, excellent for exposed positions	0 9	— — CLIMBING VARIETY, flowers identical with preceding but with strong climbing habit	1 6
Rugosa "America." The American form of <i>Rosa Rugosa</i> ; it differs from the Asian form widely; the flowers are large, open, and of a lovely crimson lake	1 6	SOUVENIR DE PIERRE LEPERDRIEUX. Another pretty Rugosa variety, of bright vinous-red colour, double, flowering in clusters; of great vigour, and superb foliage, and the abundance of fruit it produces renders it very ornamental and beautiful	1 6
Rugosa Coruscans, clear rose, distinct in colour	1 0	Spong. Pale rose, small, very double	0 9
Rugosa Fimbriata. A distinct variety of <i>Rugosa</i> , producing fimbriated white flowers. Award of Merit Royal Horticultural Society	1 6	Sulphurea. Called by some the yellow Cabbage Rose, deep bright yellow, and very double; scarce	2 0
Rugosa Plena. A double form of the <i>Rosa Rugosa</i> (see SINGLE ROSES); flowers large, crimson purple	1 0	The Garland. Nankcen and pink, changing to white; semi-double, small but showy; excellent for arches and walls in exposed positions	0 9
RUGOSA, ROSE APPLES. A distinct Rugosa variety, pale carmine rose, semi-double, with large petals; berries vivid black-crimson, slightly ovate; a fine garden rose	1 6	THALIA. Described as the <i>White Rambler</i> ; it is strong in growth, and free in flowering; colour pure white; produced in large trusses extra sized, 2/6 and 3/6 each	1 6
Russel Cottage. Magenta red, flowers in clusters	0 9	Tricolor de Flandres. Finely striped	1 0
SANCTA. The Holy Rose of the Abyssinian cloisters, dwarf and distinct habit and foliage, described as flowering from April till autumn, producing clusters of large bright pink flowers	2 0	TRIOMPHE DES NOISETTES. (N.) Bright rose, fragrant large flowers produced in clusters	1 6
		Tuscany. Fine old summer flowering deep crimson rose, very sweet and free	1 0
		Village Maid. White and crimson striped, variable	1 0
		Viridiflora. The green-flowered rose, very curious	1 0
		Vivid. Bright crimson, a fine pillar rose	0 9

--	-------------------------------------	---

The following varieties described in the first part of our Catalogue are also

good Garden Roses:—

Annie Wood.	Charles Lefebvre.	John Hopper.	Marie Finger.
Anna Olivier.	Countess of Oxford.	Jules Margottin.	Mrs John Laing.
Baroness Rothschild	Dr Grill.	La France.	Mrs Paul.
Bouquet d'Or.	Duke of Edinburgh.	La Marque.	Pride of Waltham.
Brightness of Cheshunt.	Dupuy Jamain.	Madame Berard.	Perle des Jardins.
Boule de Neige.	Francisca Kruger.	— Charles.	Reve d'Or.
Caroline Kuster.	General Jacqueminot.	— Falcot.	Rubens.
— Testout.	Gloire de Margottin.	— Isaac Pereire.	Safrano.
Celine Forestier.	Grace Darling.	— Lambard.	Senateur Vaisse.
Climbing Devonensis.	Heinrich Schultheis.	Ma Capucine.	Souvenir Ami.
— Niphetos.	Homere.	Marie van Houtte.	Sunset.
— Perle des Jardins			

Any of above varieties required for bedding or massing will be supplied by the dozen at one-sixth less than Catalogue prices, for not less than a dozen of one kind.

LORD PENZANCE'S NEW HYBRID SWEET BRIARS.

These lovely hybrids, raised by Lord Penzance, form quite a distinct break from any class of rose yet in commerce, being a cross between the common Sweet Briar and various old-fashioned garden Roses, Austrian Briars, &c. The foliage of each variety is as sweetly scented as the common Sweet Briar, and the flowers are varied in colour from pale yellow to crimson.

They are perfectly hardy and most vigorous in growth, and should not be pruned, as the flower is produced upon the preceding year's wood. The shoots should be thinned out only, those remaining being left at full length. We offer this season a few standards; grown in this way the long weeping shoots are exceedingly attractive when in flower.

Stds.	Dwt. or Bush.	Name and Description.
s. d.	s. d.	
2 0	1 0	AMY ROBSART. Lovely deep rose, the buds before opening are most graceful, of true Sweet Briar type, an abundant bloomer.
2 0	1 0	ANNE OF GEIERSTEIN. Dark crimson, followed by an abundance of pretty clustered bunches of hips, large foliage, good grower, and graceful branching habit.

LORD PENZANCE'S NEW HYBRID SWEET BRIARS—continued.

Stds.		Dwf. or Bush.	Name and Description.
s. d.	s. d.		
2 0	1 0		BRENDA. Maiden's blush or peach, dainty in colour and shape; the contrast and effect of the bright golden anthers add a peculiar charm to this variety.
2 0	1 0		CATHERINE SEYTON. A very pleasing tint of soft rosy pink, the bright golden anthers being very prominent.
2 0	1 0		EDITH BELLENDEN. Pale rose, flowering profusely in clusters at the ends of the shoots, which are long and pendulous.
2 0	1 0		FLORA M'IVOR. Pure white blushed with rose, perfect for cutting, large flowers, their elegance being increased by sprays of tender foliage that pass up between them, graceful in growth and habit; a gem.
2 0	1 0		GREEN MANTLE. Bright rich pink, with a band of white encircling the anthers, which with their background of white have a very pretty effect.
2 0	1 0		JEANIE DEANS. Semi-double, very large scarlet crimson, flowering freely in clusters.
2 0	1 0		JULIA MANNERING. Soft pearly or porcelain pink, the prettiest of all the pink varieties; thoroughly perpetual.
2 0	1 0		LADY PENZANCE. Beautiful soft tint of copper with a peculiar metallic lustre; the base of each petal is a bright yellow. A cross between <i>Sweet Briar</i> and <i>Austrian Copper</i> .
2 0	1 0		LORD PENZANCE. Soft shade of fawn or écu passing to a lovely emerald yellow in the centre, sometimes toned with a most delicate pink, a good grower and abundant bloomer, very sweet-scented; this variety is a seedling from <i>Sweet Briar</i> and <i>Harrisonii</i> .
2 0	1 0		LUCY ASHTON. Pretty white blooms with pink edges, not so large as some others, wonderfully free flowering; free grower with rather erect shoots, foliage very sweet.
2 0	1 0		LUCY BERTRAM. A fine deep crimson, the richest colour of all, the centre is pure white, which shows off the bright yellow anthers to good advantage.
2 0	1 0		MEG MERRILEES. Gorgeous crimson, very free flowering, seeds abundantly, has a wonderfully robust habit, large foliage, one of the best.
—	1 0		MINNA. Large pure white, opening with a tint of palest blush, bushy habit, foliage like a Scotch Briar.
2 0	1 0		ROSE BRADWARDINE. Beautiful clear rose, perfect in shape, very profuse, strong robust habit.

The complete set of Hybrid Sweet Briars, one strong bush plant of each of the 16 vars., for 15s., carriage and packing free.

OTHER BRIAR ROSES.

The Austrian and Persian Yellow Roses are amongst the most beautiful and distinct of all the old fashioned Roses; they are perfectly hardy, but should be allowed to grow wild with scarcely any pruning; this is necessary, as they always flower upon the ripened wood of the preceding year's growth. We also suggest these Briars being grown as pot plants; plants with long shoots potted up in autumn flower freely in late spring, and are exceedingly pretty and novel amongst plants in the conservatory.

Dwf. or Bush.		Name and Description.
s. d.	s. d.	
1 0	1 0	AUSTRIAN BRIAR, YELLOW, pure clear yellow, single, very free-flowering.
1 0	1 0	— COPPER, nankeen or copper colour, single, the under part of petals shaded orange, very distinct and beautiful; this and the preceding variety was known in England as far back as 1596.
1 0	1 0	HARRISONII, double, fine clear golden yellow; introduced in 1830.
1 6	1 0	Janet's Pride, crimson lake, with broad stripes of light crimson, most beautiful in its colouring; a beautiful Sweet Briar introduced by the Rev. H. H. d'Ombrain.
1 0	1 0	Persian Yellow, the deepest yellow Briar Rose, large and full and very double; introduced in 1838.

SINGLE ROSES.

SINGLE ROSES are highly decorative in the flower garden, and so beautiful for Vases and Bouquets in the cut state that every garden should possess some of the varieties. All we catalogue are quite distinct, but particular attention may be directed to the varieties of *Rugosa*, which in addition to producing a constant succession of their showy white and red blossoms, bear in autumn and winter clusters of large crimson berries, which in contrast with the deep green foliage forms a most attractive object in any border. The beautiful and distinct *Copper Austrian Briar*, and the *Macartney Simplex*, with its bright shining evergreen foliage and large pure white blossoms, form handsome subjects for dwarf walls. *Paul's Single Crimson* and *White Perpetuals* are charming for the mixed border or Rose bed, and the new *Crimson Bedder* we now offer will be invaluable for bedding and cutting.

COOLING'S SINGLE CRIMSON BEDDER. Fully described amongst GARDEN ROSES, page 19. This lovely new Single Rose should be included in every collection.—Strong plants, 1s. 6d. each; 15s. dozen.

	Each—s. d.		Each—s. d.
Acicularis , a species from Siberia, blush, very distinct in colour	1 6	Miss Low's China , bright crimson, very beautiful; the wild type of the China rose	2 6
Altaica , lemon white, large single flowers ...	1 6	Moschata alba , the single white Musk Rose	1 6
Andersoni , single pink, very pretty, and one of the most distinct Single Roses ...	2 0	Nuttalliana , bright rose, late flowering ...	1 6
Anemone , bright shiny foliage; flowers silvery pink shaded bright rose, very free, beautiful	1 6	Paul's Carmine Pillar , see GARDEN ROSES, page 31	1/6 to 5 0

Biggeriana , small white flowers, very free ...	1 6	Paul's Single White , pure white with yellow stamens	1 0
Camellia Japonica , pure white, with large yellow stamens	1 6	Pimpinellifolia , blush, small leaves, and very spiny; English Burnet rose	1 6
Carolina , clear light pink, perpetual flowering	1 6	Pisocarpa , small red pea-shaped hips, very pretty	1 6
Cinnamonia , large pure white	1 6	Pissardi , slender and very spiny branches, which have a tendency to droop. Colour pure white, sweetly scented, and produced in great profusion for several months ...	1 6
Copper Austrian Briar , nankeen yellow, very distinct per doz. 9/	1 0	Polyantha , white, produced in clusters, very showy for pillars	1 0
Ecae , Afghan yellow Rose, scarce	3 6	Polyantha grandiflora , pure white, a large form of the preceding, fine for arches and pillars	1 0
Gigantea , large white flowers; those in the Kew Herbarium, sent from India, measure 5½ inches across; but it has not yet flowered in this country	2 6	Pomifera , blush coloured flowers; producing large scarlet fruit in great abundance ...	1 6
Hebe's Lip , white, with Picotee edge of purple, a charming variety, and one of the finest Single Roses	1 0	Pulverulenta , large single white, early flowering	1 6
Himalayica , the <i>Himalaya Briar</i> , a most interesting variety, exceedingly pretty for arches, it has a rambling habit and produces clusters of showy single flowers, pure white with yellow stamens	1 6	Royal Scarlet , brilliant scarlet, dwarf bushy habit, very distinct	2 6
Lucida , bright red, charming glaucous red foliage	1 6	Rugosa , single carmine-crimson flowers, which are succeeded in autumn by bunches of large berries of a rich coral red colour ...	0 9
Macartney Simplex , large single white, evergreen shining foliage	1 6	Rugosa alba , pure white variety of the above	1 0
Macrantha , pure white, very large and bold flower with golden stamens; one of the finest Single Roses	1 0	Wichuriana , see page 22	1 6
		Yellow Austrian Briar , pure golden yellow	1 0

We were awarded First Prize at the Crystal Palace National Rose Show, and First Prize at the Provincial Show of the National Rose Society at Portsmouth for our collections of Single Roses.

MINIATURE or FAIRY ROSES.

A very pretty and ornamental class of Roses which have been much improved by the additions made during the last season or two. The plants are very compact in habit, and bear in great profusion pretty small double flowers. These varieties are admirably suited for pot culture as conservatory plants; for planting out for edgings of rose beds (the pretty *LAWRENCIANA RUBRA* and *WHITE FAIRY* with their tiny double flowers and foliage being particularly suited for this purpose), or for forming mixed beds; in the latter case, if planted in variety with the old Blush or Crimson China as a contrast to the other light shades of colour, a very attractive and interesting bed which will be always in flower may be provided.—Strong dwarf plants, each 1s.; per dozen, 9s.

- Anne Marie de Montravel**, flowers very diminutive, of the purest white. A perfect Fairy Rose, deliciously perfumed.
- Blanche Rebatel**, bright crimson, white centre, very distinct and pretty.
- Clothilde Soupert**, pure white, with a distinct pink centre, most exquisitely shaped.

- Etoile d'Or**, citron yellow, shading to pale chrome yellow, very free.
- Etoile de Mai**, nankeen yellow, passing to pale yellow.
- Floribunda**, fresh lilac rose, fine form.
- Georges Pernet**, rose changing to peach, with yellow shading, very free, a charming novelty.

MINIATURE or FAIRY ROSES.

- | | |
|-----------------------------|-----------------|
| 1. LAWRENCIANA RUBRA. | 4. MIGNONETTE. |
| 2. ANNA MARIE DE MONTRAVEL. | 5. PERLE D'OR. |
| 3. THE PET. | 6. PARQUERITTE. |

Bushy Plants, 1/ each ; 9/ per dozen.

MINIATURE or FAIRY ROSES—continued.

- Gloire de Polyantha**, deep rose, with a white base to the tiny petals; exceedingly pretty.
- Golden Fairy**, clear buff, lighter on edge of petals; occasionally yellow and pure white blooms are produced on the same spike.
- Jeanne Drivon**, white edged with rose, small, and very full, in the form of a Balsamine Camellia.
- Lawrenciana Rubra**, the old double red Fairy, free flowering and very pretty.
- LILIPUT** (*new*), cerise carmine, shaded crimson, small rosette-shaped flowers.—1/6.
- Madame C. Brunner**, light pink or blush, very sweet and of dwarf habit.
- Madame E. Nolte**, fawn yellow, paling to rosy white
- Mademoiselle Josephine Burland**, white, softly shading off as it ages; flowering constantly and freely.
- Marie Pave**, pure white, resembling *The Pet*, very free flowering.
- Mignonette**, soft rose changing into white, really beautiful as a miniature variety.
- PERLE DES ROUGES**, velvety crimson, reflex of petals bright cerise; very pretty variety.—1/6.
- Perle d'Or**, yellow with orange centre, flowering in large clusters, novel and distinct.
- Parqueritte**, pure white, very continuous and pretty.
- Red Pet**, dark crimson, in autumn the miniature flowers when opening are almost maroon.
- The Pet**, double white, profuse bloomer, one of the prettiest little roses in cultivation.
- White Fairy**, pure white, small and double, a pretty for rose bedding or edgings of beds.

MOSS ROSES.

Summer Varieties.

These bloom in May, June, and July, and are all favourites on account of their peculiar and beautiful appearance.

Dwf. or Bush.	Name.	Description.
s. d.		
0 9	Alice Leroy	rosy pink, well mossed buds.
1 0	Baronne de Wassenaar	deep rose, very early, double, and showy.
0 9	Captain Ingram	dark velvety purple, fine.
0 9	Common , per doz. 7/6	pale rose, large and free.
1 0	Comtesse Murinais	white, large and double.
1 0	Crested	pale rosy-pink, buds beautifully crested, distinct.
1 0	Crimson Globe	deep crimson, globular shaped flowers, and beautifully mossed.
0 9	Gloire des Mousseuses	blush, large and full, one of the best.
0 9	Gracilis or Prolific	deep pink, globular, large, full, and of good shape; an excellent kind.
0 9	Henry Martin	shaded velvety carmine, fine.
0 9	Lanei	deep brilliant rose, a beautiful round handsome bud.
1 0	Little Gem	small double crimson flowers; charming.
0 9	Luxembourg	dark purplish crimson, beautiful.
1 0	Marie de Blois	bright rose, large, full; well mossed, handsome buds.
0 9	Nuit d'Young	blackish crimson, distinct.
1 0	Œillet Panache	the finest striped Moss Rose, white ground with bright red stripes.
0 9	Princess Alice	deep bluish red, centre pink, buds well mossed.
1 0	White Bath	paper white, beautiful, large and full.
1 0	Zenobia	satin rose colour, very soft and pleasing, and very fragrant.

Perpetual Moss.

The following are all Autumn as well as Summer blooming kinds, and are of great merit. They should have good rich soil, and should be closely pruned.

Dwf. or Bush.	Name.	Description.
s. d.		
0 9	Blanche Moreau	pure white, well mossed.
1 0	Eugene Verdier	rich crimson, good.
1 0	Madame Edward Ory	bright rosy carmine, large and full.
0 9	Madame Moreau	rose edged with white, deeper in the centre,
0 9	Mousseline	white, sometimes slightly tinted in opening, large and full.
1 0	Perpetual White	white, blooming in clusters, very mossy.
1 0	Souper et Notting	flowers very large and full, of the most perfect form, fine bright rose, foliage large, equal to the <i>Cabbage Rose</i> .
0 9	Salet	very bright pink, flowering freely in autumn.

We supply an Assortment of 12 best Moss Roses, carriage or post free, for 9s.

Roses in Pots

FOR FORCING AND GREENHOUSE CULTURE.

We have a very large stock of Roses established in pots, and prepared for Winter and Spring flowering under glass; also of all the best varieties of Climbers for indoor cultivation. The plants are exceptionally fine and well ripened. Strong and bushy plants can be supplied of the following varieties.

Prices—Extra sized Plants, in 6 to 8 in. pots, 21s., 24s., 30s., and 36s. per dozen.

Smaller Plants, in 5 in. pots, 15s. to 18s. per dozen.

TEA-SCENTED AND HYBRID TEAS.

ALBA ROSEA	GUSTAVE REGIS	PAPA GONTIER

HYBRID PERPETUALS.

Most of the leading varieties can be supplied well established in pots for forcing.

THE BEST CLIMBING ROSES.

To facilitate the selection we bring together here the best Climbing Roses from all classes. The higher priced plants are extra large with shoots from 6 to 10 feet in length for immediate effect, and will be sent in pots unless otherwise ordered.

Each		
s. d.	s. d.	
2 6	to 5 0	Ards Rover , a distinct new crimson climber.
1 6	to 5 0	Aglaia . The Yellow Rambler.
2 6	to 7 6	Allister Stella Gray , yellow, with deeper centre, flowers in clusters.
1 6	to 3 6	Banksian White , one of the best cluster roses.
1 6	to 3 6	Banksian Yellow , very pretty and sweet-scented.
1 6	to 5 0	Beauty of Glazenwood or Fortune's Yellow , yellow flaked with carmine, a charming climber for a warm spot.
1 6	to 5 0	Belle Lyonnaise , deep lemon, large, full, and fine form.
1 6	to 5 0	Bouquet d'Or , one of the best yellow roses.
1 0	to 5 0	Celine Forestier , fine bright yellow, highly fragrant.
1 0	to 5 0	Cheshunt Hybrid , cherry carmine, large, full, and very hardy.
1 6	to 7 6	— Devoniensis , creamy white, with bright salmon pink centre.
2 6	to 5 0	Climbing Kaiserin Augusta Victoria , a very beautiful white climber.
1 6	to 7 6	— Niphetos , perhaps the finest of all white climbing roses, in every respect identical with the old <i>Niphetos</i> excepting in habit, which is of a strong climbing character, similar to <i>Marechal Niel</i> .
—	1 0	— Pride of Waltham , delicate flesh colour, shaded bright rose.
1 6	to 5 0	— Perle des Jardins , a grand acquisition to climbing Roses. The colour is like the old variety, bright yellow sometimes deep canary.
1 6	to 5 0	Cloth of Gold , requires a warm situation.
1 6	to 5 0	Euphrosyne . The Pink Rambler.
1 6	to 5 0	Gaston Chandon , pink, shaded clear rose, base of petals coppery yellow.
1 0	to 5 0	Gloire de Dijon , yellow shaded with salmon, hardy and free flowering.
1 6	to 5 0	Gustave Regis , long pointed buds, canary yellow with deeper centre.
2 6	to 5 0	Helene , a seedling from <i>Crimson Rambler</i> , delicate violet shaded carmine red.
1 6	to 5 0	La Marque , straw lemon, shaded sulphur yellow, long pointed bud.
1 6	to 7 6	L'Idéal , yellow and metallic red, shaded, streaked, and tinted golden yellow, an exceedingly pretty and distinct variety.
1 0	to 3 6	Madame Berard , salmon yellow, back of petals clear rose.
—	1 0	— Isaac Periere , vivid carmine, large and good.
—	1 0	— Plantier , pure white, free flowering.
1 6	to 5 0	— Carnot , golden yellow, deeper in the centre with coppery edge—a seedling from <i>W. A. Richardson</i> .
1 6	to 5 0	— Pierre Cochet , a charming yellow button-hole climbing variety.
1 6	to 7 6	Marechal Niel , the finest yellow rose in cultivation. We have a very large stock of well ripened extra sized plants on sale this season.
1 6	to 5 0	Marechal Niel , white.
—	1 6	Ophirie , bright salmon and fawn, distinct and peculiar.
1 6	to 5 0	Paul's Carmine Pillar , single, rosy carmine, an excellent pillar rose.
—	1 6	Prince Cretwertwisky , clear straw colour, with deeper centre, distinct.
1 6	to 5 0	Reine Marie Henriette , deep carmine, long pointed bud of good shape, one of the best red climbing roses.
1 6	to 2 6	Souvenir de Malmaison, Climbing , clear flesh, large and double.
1 6	to 5 0	Thalia . The White Rambler.
1 0	to 3 6	Turner's Crimson Rambler , bright crimson, flowering in clusters.
1 6	to 2 6	Reve d'Or , deep yellow, large and full.
1 6	to 7 6	William Allen Richardson , beautiful deep orange yellow, petals edged with white, a general favourite.

THE following is a very select List, comprising the most reliable and best known varieties in their respective classes. Any variety not mentioned can be supplied if notice of a day or two be given.

Purchasers will greatly oblige if they will add to their orders a few supplementary names which we may use if any of the first-named are sold out.

We would also suggest to those of our patrons who have not an intimate acquaintance with the various kinds of Fruit Trees, that it would be to their advantage to leave the selection of varieties in our hands, stating the purpose for which the Trees are required, the aspect in which they are to be planted, and the nature of the soil. In this case they may be assured their confidence will not be misplaced, as the selections will be made with the best judgment and care.

The varieties printed in bold type can be specially recommended.

Coolings' Guinea Collection of Fruit Trees.

— FOR A SMALL GARDEN —

ONE DOZEN WELL-GROWN FRUITING BUSH OR PYRAMIDAL-SHAPED TREES,

Of choicest sorts, in variety, as follows:—

<p>Four Bush Apples, including good specimens of Cox's Orange Pippin, Beauty of Bath, &c.</p>	<p>Four Bush Pears, including good specimens of Williams' Bon Chretien, Pitmaston Duchess, &c.</p>	<p>Four Bush Plums, including good specimens of Green Gage, Victoria, &c.</p>
--	---	--

The varieties included are selected to come into use in succession. The Trees are compact in growth, taking up little room in the garden, and will come into bearing at once.

THE TWELVE TREES may be had in same varieties, TRAINED FOR WALLS, for	32s. 6d.
Or SIX BUSH TREES (2 Apples, 2 Pears, 2 Plums), and SIX TRAINED TREES FOR WALLS (2 Apples, 2 Pears, 2 Plums), for	27s. 6d.

Prices quoted include careful Packing.

EXTRA LARGE FRUITING APPLE TREES.

We are often asked for extra large Bush Trees of Apples, and we can this Season supply a few each of large fruiting trees of the following varieties at 5/ and 7/6 each. These trees would be five to six feet in height and three to four feet through, and would come into bearing at once.—*Bismarck*, *Beauty of Bath*, *Ecklinville Seedling*, *Emperor Alexander*, *Cox's Orange Pippin*, *Gravenstein*, *Irish Peach*, *Pott's Seedling*, *Peasgood Nonsuch*, *Lord Grosvenor*, *Red Astrachan*, *Stirling Castle*.

Ornamental Fruiting Crabs.

These are well deserving of general cultivation, for not only is the fruit valuable for preserving, but the great profusion of blossom in the spring, and the bright coloured fruit of many of the sorts, render them most attractive as ornamental trees, either on the lawn or in the shrubbery.—*Standards and Pyramids*, 1/6 to 2/6.

Name.	Description.
American	cherry shaped and size, very prolific, handsome fruit.
Dartmouth Crab	a most beautiful and distinct fruit, deep purplish crimson, large, with a fine bloom, exceedingly ornamental.
Imperial	bright crimson, rich and juicy; valuable for preserving.
John Downie	fruit bright orange-scarlet, of an acorn shape, of good size and hangs in clusters; excellent for preserving, and a really handsome dessert fruit
Mammoth	the largest of the yellow fruited kinds.
Scarlet Siberian	the best to eat when dead ripe, very ornamental.
Yellow Siberian	ornamental, and free bearer.
The Fairy	about the size of a Golden Pippin Apple, yellow and red, will keep until April.

Esperion. Black, a capital out-door variety.
Frankenthal. Black, large bunch, flesh rich, juicy.
Foster's Seedling. White, very early, free and of good quality, a first-rate early grape.
Gros Colman. A most handsome black grape. The bunches and berries are alike of enormous size, very juicy and sweet.
Gros Maroc. A remarkably fine black late grape, berries very large, and flavour excellent.

Hamburgh (Black). Well-known as one of the best and most popular of grapes.
Hamburgh Mill Hill (Black). Of first-class excellence, succeeds well in an ordinary vinery.
Lady Downes (Black). Berries large and oval in shape, flesh firm, sweet, and richly flavoured, one of the best for late crop, and an excellent keeper.
Madresfield Court Black Muscat. Bunches long, berries large, and of a rich Muscat flavour; a superior grape, and an excellent keeper.
Mrs Pearson (White). Berries large and oval, of golden colour, and forms a handsome bunch.
Muscat of Alexandria. A delicious grape, bunches large and well shouldered, berries also large and of a greenish-yellow, becoming a fine amber colour when thoroughly ripened.
Muscat, Mrs Pince's (Black). An excellent variety, flesh firm, with fine Muscat flavour.
Muscat Hamburgh (Black). A highly-flavoured grape, having large well-shouldered bunches and large berries.
Royal Muscadine. A well-known excellent white grape, succeeding in a cool vinery or a wall.

GRAPE VINES FOR OUTSIDE CULTURE.—Of *Sweetwater* and *Small Black* varieties. Strong plants in pots. 2s. 6d. and 3s. 6d.

CURRENTS.

Black Naples, large, very sweet and good, a very excellent variety.

Common Black, a well-known old variety, very productive.

DUNNET'S BLACK CHAMPION. Bunches very long, with immense berries, hanging longer and later than any other variety.

Invincible, one of the largest red varieties, a strong grower, and a great bearer.

La Hative, a very early red variety, excellent.

Lee's Prolific Black, bunches produced in immense numbers, berries very large, richly flavoured.

Red Grape, large, deep red, a sweet rich kind, and a prolific bearer.

Raby Castle, bunches larger than those of *Rea Dutch*, berries larger and of a brighter red; an abundant bearer.

Wilmot's Red, a very superior kind, somewhat later than the preceding.

Wilson's Bunch, a selected red variety, heavy cropper, and said to be the best variety brought into Covent Garden Market.

White Dutch, large, sweet, and very good, a fine dessert kind.

WHINHAM'S INDUSTRY.—One of the best for market purposes, being a larger cropper than any other known variety; it has the remarkable property of flowering very late and afterwards swelling so quickly that it reaches a suitable size for gathering green sooner than any other kind. If left to attain maturity it is a dark red colour, hairy, with a pleasant rich flavour.

Strong Fruiting Bushes, 9d. each; 7s. 6d. per doz.

Two year old Trees, 4s. per doz.; 25s. per 100.

Special quotations by the 1000.

STRAWBERRIES.

BATH being the centre of one of the largest Strawberry producing districts in England, we have unusual opportunities for noting and selecting the best varieties. The runners have been very carefully prepared, and are in fine condition for planting; we can supply most of the leading varieties in small pots, a crop of fruit may be secured the first season by planting from these.

500 Plants in 5 of the Choicest Varieties, our Selection, for Succession, 21s.

250 Plants in 5 of the Choicest Varieties, our Selection, for Succession, 11s.

Varieties marked thus * may be had established in Small Pots at 2s. per doz.; 15s. per 100.

WATERLOO, large cockscomb shape, rich claret red in colour, of taking appearance, and a valuable addition for dessert; it packs well and is altogether an excellent late variety ...	1	0	5	0					

All other varieties at advertised prices.

We can supply a few of the most suitable varieties of Strawberries for forcing, in 5-in. and 6-in. pots. Varieties and prices on application.

RASPBERRIES.

Fine Canes, 2s. per doz.; 12s. per 100, excepting those priced.

BAUMFORTH'S SEEDLING, a very heavy cropping, extra large, and highly flavoured variety, per doz. 3s.; per 100, 20s.

Carter's Prolific, dark red, strongly recommended.

Fastolf, purplish red, large and excellent.

NORTHUMBERLAND FILL-BASKET, large, deep red, free bearing.

Norwich Wonder, fruit large and well flavoured, robust grower.

Prince of Wales, large, crimson, brisk flavour.

Red Antwerp, large, crimson, fine.

Rivers' Double-Bearing, large, crimson, free bearing,

Steele's Victoria, said to be the finest variety sent into Covent Garden Market; the fruit is large, handsome, and early, and it is almost continuous in bearing, good gatherings having been made as late as November; it is very superior in flavour, and we can thoroughly recommend it. Strong canes, per doz. 3s.; per 100, 20s.

SUPERLATIVE, of large size and frequently produced on the young canes, hence it may be considered a perpetual bearer, it succeeds where many tender varieties fail. Strong canes, per doz. 3s.; per 100, 20s.

THE GUINEA, a new, large, yellow variety, a seedling from *Superlative*, having all the good qualities of that first-class variety, per doz. 9s.

White Antwerp, large, pale yellow, mild and sweet.

THE LOGANBERRY.

(Received Award of Merit, R.H.S.)

This fruit is an entirely fresh departure, being a true hybrid between the red Raspberry and Blackberry; said to be perfectly hardy, having stood in an exposed position without any protection the temperature below zero, and coming through the winter without injury. The berries are very large, deep reddish maroon in colour. They are rich in flavour, being a delicious mingling of the Raspberry and Blackberry, are melting, and without core; a beautiful fruit for dessert, making also a first-class jelly or jam.

Plants, 1s. 6d. each; 15s. per doz.

WINEBERRY.

Japanese (*Rubus phanicolasius*). More hardy and vigorous than any Raspberry or Blackberry. Large clusters of fruit of a scarlet-wine colour; very sweet and juicy, and berries contain only very small seeds.

Plants, 1s. each; 6s. and 9s. per doz.

NEW AND RARE Evergreen Shrubs, Ornamental and Deciduous Trees.

NEW EVERGREEN SHRUBS AND CONIFERS.

- ABIES (PICEA) PUNGENS GLAUCA.** A beautiful and distinct Conifer, one of the finest of the American Spruces. Bluish-grey foliage, most attractive, excellent for single specimens on Lawns, &c.—Each 5/6, 7/6, and 10/6.
- BAMBUSA METAKE,** one of the best known and hardiest of the Bamboos, forms fine clump, and often grows 10 feet high.—2/6 and 3/6 each.
- BAMBUSA FORTUNEI VARIEGATA.** One of the prettiest of the dwarf Bamboos, the leaves are striped with white.—1/6 and 2/6 each.
- BUDDLEA VARIABILIS,** a very distinct variety, long silver leaves, and clusters of fragrant reddish violet flowers.—2/6 each.
- CARPENTARIA CALIFORNICA** (*The Tree Anemone*). An evergreen shrub with narrow shining leaves, flowering from the beginning of July until October; the large flowers are similar to an Anemone, pure white, 3 inches across, with a bold group of stamens of a lively yellow.—2/6 each.
- CEDRUS ATLANTICA GLAUCA.** A distinct and desirable new Cedar, of free growth, the foliage of quite a silvery whiteness; will be one of the most striking of park and landscape trees.—3/6, 5/6, and 7/6 each.
- CUPRESSUS MACROCARPA LUTEA.** A distinct golden variegated variety of the quick growing *Cupressus macrocarpa*, colour is clear and constant; altogether a desirable new shrub.—2/6, 3/6, and 5/6 each.

From R. R. WARAKER, Esq., Beckington.—“I consider the Trees I bought off you an exceedingly nice lot. I am very pleased indeed with the way you have executed my order.”

- CUPRESSUS, TRIUMPH OF BOSKOOP**, a beautiful variety of *C. Lawsoniana*, with blue glaucous tint, quite distinct.—5/ each.
- HOLLY, OVATA AUREA MARGINATA**. A golden margined variety, particularly bright and distinct in colour, and of neat and compact growth.—7/6 each.
- LAURESTINUS—NEW GOLDEN VARIEGATED**. A very elegant novelty. It is quite as free in growth as the ordinary Laurestinus, but the leaves are beautifully striped and blotched with yellow; a most attractive and distinct evergreen.—1/6, 2/6, and 3/6 each.
- LIGUSTRUM OVALIFOLIUM AUREUM**. A golden variety of the oval-leaf Privet, it is as hardy and free as the ordinary green variety, keeps its colour well, and stands the smoke of large towns better than the Euonymus. This is undoubtedly one of the plants of the future for extensive and useful planting.—15 to 18 in. high, 9/ per doz.; 18 to 24 in., 15/ per doz.; 2 to 2½ ft., 24/ per doz.; large bushes, 2/6 and 3/6 each.
- LIGUSTRUM LUCIDUM TRICOLOR**. A beautiful variegated variety of the Chinese Privet; the leaves are margined with yellow and red.—1/6 and 2/6 each.
- SCIADOPITYS VERTICILLATA** (*The Umbrella Pine of Japan*). Most ornamental and distinct; does best in a moist situation and in peaty soil.—2/6 and 3/6 each.
- TAXODIUM SEMPERVIRENS ALBA SPICA**. A distinct and pretty variety of Taxodium, with silvery white tips to each shoot.—2/6 and 3/6 each.
- THUJOPSIS BOREALIS LUTEA**. A grand new Golden Conifer as free and hardy as the *Thujaopsis borealis*; a more beautiful Lawn Tree can scarcely be found.—2/6, 3/6, 5/, and 7/6 each.

NEW ORNAMENTAL AND DECIDUOUS TREES.

- ACACIA INERMIS VARIEGATA**. A variegated form of the beautiful *Acacia Inermis*; it is very constant, and can be highly recommended.—Standards, 7/6 each.
- ACER NEGUNDO AUREA VARIEGATA**. Similar in growth to the well-known Silver-variegated Acer, but the leaves have a bright golden margin, most distinct.—Dwarf, Bush Plants, 1/6 to 2/6 each; Standards, 2/6 to 3/6 each.
- ACER NEGUNDO CALIFORNICA AUREA**. A most effective new tree, with brilliant golden foliage which does not burn in the sun, and keeps its character from Spring until Autumn.—Standards, 10/6 each; Dwarfs, 7/6 each.
- ACER PLATANOIDES ARGENTEA MARGINATA**. A distinct new variety of Norway Maple, the foliage being clearly margined with silver.—3/6 each.
- ACER PSEUDO-PLATANUS ATROPURPUREUS**. A distinct variety of Sycamore, the leaves are deep purple in colour.—3/6 each.
- ACER PURPUREA NIZETTI**. A most attractive Sycamore. The outer surface of the leaves are beautifully splashed green, red, and yellow, the reverse side being a bright rosy purple.—Standards, 3/6 and 5/ each.
- ACER JAPONICUM** (*Japanese Maples*). The many varieties of these form one of the most beautiful additions to our Ornamental Deciduous Trees. The distinct markings and shades of the foliage and their bushy habit of growth make them specially suitable and effective in borders and shrubberies, and as pot plants for the cool conservatory they are most valuable. In many distinct varieties.—2/6, 3/6, and 5/ each.
- AILANTHUS GLANDULOSA PENDULA**. A weeping variety of the *Ailanthus*, producing very long leaves, distinct and good.—10/6 each.
- AMORPHA CANESCENS**. A pretty dwarf shrub with light green foliage, and bearing dense spikes of dark violet-blue flowers during July and August.—2/6 each.
- AZALEA RUSTICA FLORE PLENO**. These are double varieties of the well-known *Azalea mollis*, quite distinct and free blooming; hardy for the open border, and most useful as pot plants for the conservatory.—2/6 each.
- BETULA MAXIMOWICZII**. A very distinct new Birch. It attains a good height; the bark is grey and orange, the leaves are large, oval, bright green on the upper and yellow on the under side.—5/ each.

- CATALPA SYRINGÆFOLIA PURPUREA.** A beautiful new Catalpa, the leaves are nearly black when young, and later in the season purple.—2/6 each.
- CLERODENDRON TRICHOTOMUM.** One of the most distinct of hardy shrubs, producing delightfully fragrant flowers, white with purplish calyx; flowers in September.—2/6 and 3/6 each.
- CORNUS SPATHI.** A beautiful new shrub having broad golden margined leaves, very attractive.—2/6 and 3/6 each.
- CRATÆGUS CARRIERI.** One of the finest Thorns, large deep green glossy foliage, remaining upon the tree until December; it bears large bunches of white flowers which turn to rose, and produces bold fruit as large as a cherry.—Standards, 2/6 and 3/6 each.
- CRATÆGUS KEROLKOW.** A fine variety, the leaves are deeply cut; it blossoms early in Spring and in Autumn is loaded with yellow fruit.—Standards, 2/6 and 3/6 each.
- CYTISUS SCHIPKAENSIS.** A dwarf variety introduced from the Balkans, producing an abundance of white flowers throughout the summer.—2/6 each.
- DEUTZIA HYBRIDA LEMOINEI.** A decided acquisition in flowering shrubs, a hybrid between *Deutzia gracilis* and *Deutzia parviflora*, the flowers are pure white, produced in large clusters, and much more lasting than *Deutzia gracilis*.—1/6 each.
- GENISTA ANDREANA.** A very beautiful variety of the Common Broom, the superior petals are golden yellow, the lateral ones of a beautiful velvety purple crimson; most showy and distinct.—1/6 and 2/6 each.
- FAGUS SYLVATICA ROTUNDIFOLIA,** a very handsome and distinct New Beech. Awarded a First-Class Certificate by the Royal Horticultural Society; it has small roundish leaves, ribbed and very slightly toothed, dark green above and paler beneath.—5/ each.
- HEDYSARUM MULTIJUGUM.** An introduction from Magnolia. A hardy shrub of spreading habit with glaucous green foliage, it flowers from March until Autumn, producing pea-shaped flowers in clusters of a reddish-purple colour with white and yellow spots at the base of the standard.—2/ each.
- HYPERICUM MOSERIANUM TRICOLOR.** A striking novelty in *St John's Wort*, foliage yellow, clearly bordered with rose, flowers clear yellow; a fine introduction for bedding and edging purposes.—1/ each; 10/6 per dozen.
- LIRIODENDRON AUREA MARGINATA.** A beautiful variegated form of the Tulip Tree; perhaps the finest and boldest variegated deciduous tree we have, each of the large leaves being margined and splashed with yellow.—3/6, 5/, and 7/6 each.
- LARCH—WEEPING.** A graceful weeping variety of the Common Larch; most ornamental and striking as a standard tree.—5/ and 7/6 each.
- LILAC—MARIE LEGRAYE.** The best white Lilac for outdoors or pot culture.—Strong Flowering Plants, 2/6 each.
- PHILADELPHUS HYBRIDA LEMOINEI.** A fine form of the *Mock Orange*, large white flowers, freely produced and deliciously scented.—1/6 each.
- PLATANUS OCCIDENTALIS SUTTNERI.** A very distinct and handsome new Plane, with large bold green foliage, with clear white spots.—10/6 each.
- PYRUS ANGUSTIFOLIA FLORE PLENO** (*Sweet-scented Crab*). A beautiful flowering ornamental tree of vigorous growth, flowers delicate pink, very double, and of delicious fragrance.—3/6 each.
- RHUS GLABRA LACINIATA,** a beautiful new decorative shrub, with distinct fern-like foliage.—2/6 each.
- SAMBUCUS PLUMOSA AUREA.** A new Golden Elder; a decided improvement upon existing varieties, the colour is very bright, bears exposure to the sun, and keeps good until the Autumn; the leaves are deeply cut and fringed at the edges, giving it a very graceful appearance. Certificated in London, Amsterdam, and Ghent.—2/6 and 3/6 each.
- SPIRÆA, ANTHONY WATERER.** A beautiful new dwarf Spiræa, very free flowering, of a rich bright red in colour. A valuable addition to flowering shrubs.—1/6 each.
- ULMUS AMERICANA AUREA.** A very free growing new golden Elm, the foliage is large and of a bright yellow colour; a good novelty.—3/6 each.
- WEIGELIA, EVA RATHKA.** A distinct and beautiful variety, flowers dark red, of good substance and produced abundantly. First-Class Certificate Royal Horticultural Society.—1/6 each.

RHODODENDRONS.

The varieties of this grand race are now so numerous that we have only given a few of the most distinct kinds from our large collection of Hybrids, which we can furnish at 30s., 42s., and 60s. per dozen, or £10 to £25 per 100. An effective mass can be made by backing up the named sorts with *Ponticum* and seedling varieties, which are cheaper.

CLEMATIS.

These hardy and easily cultivated climbing plants should be found a place in every garden. Whether used for covering old walls, verandahs, rustic poles or pillars, or for bedding, they are unsurpassed. Nothing produces so grand and gorgeous effect as a well-flowered bed of the beautiful purple variety of *Jackmanii*, which produces its rich deep-coloured flowers in great profusion throughout the summer and autumn.

The only secret of success in growing them is a good rich soil; an annual mulching should be given of horse or cow manure, and during the growing season a few liberal soakings of liquid manure.

Collections of Clematis.

One Dozen choice and distinct varieties of our selection, Spring, Summer, and Autumn flowering kinds, to produce bloom from May until October, 15/.

Half-a-Dozen distinct kinds, as above, 9/.

NEW CLEMATIS.

The following are three new Hybrid varieties raised by Messrs Jackman; they have been certificated by the Royal Horticultural Society, and are described as being a complete break from all existing garden varieties; they are decidedly pretty and most distinct.

	Each—s. d.
COUNTESS OF ONSLOW. Bright violet purple, with a broad band of scarlet down the centre of each petal, it is of open bell-shaped form with four to six petals to each flower, it is very free and quite hardy	3 6
DUCHESS OF YORK. Pale blush pink, of a delicate and very pleasing shade of colour, with a deeper tinge down the centre of each petal, of campanulate form, and quite hardy	3 6
DUCHESS OF ALBANY. Beautiful bright pink, deeper down the centre, softening down to a lilac pink round the margin, campanulate in shape, quite hardy, and a vigorous grower	2 6

The Set of Three for 8s. 6d.

MONTANA GRANDIFLORA. A very large flowering variety of the old Montana; the flowers are nearly twice the size, and it is equally free in flowering and strong in growth; a great improvement ... 2 0

SPRING AND SUMMER FLOWERING CLEMATIS.

Flowering during May, June, and July.

As these flower upon the ripened wood of preceding year's growth, they must be but slightly pruned in winter.

	Each—s. d.		Each—s. d.
Albert Victor, deep lavender, with pale bars	1 6	John Gould Veitch, double, lavender blue, flowers rosette formed	1 6
Aurora, double rose coloured flowers, handsome	1 6	Lord Gifford, dark, shaded plum colour, fine	1 6
Belle of Woking, double, silvery grey, fine...	1 6	Madame Emilie Sorbet, deep sky-blue	2 0
Countess of Lovelace, double, deep lilac	1 6	Madlle. Torriana, bright rose, distinct	2 0
Duchess of Edinburgh, the best of the double white varieties, deliciously scented	2 0	Montana, pure white, wood-anemone-like	1 0
Edouard Defosse, deep shaded mauve, dark centre and red anthers, a beautiful variety	1 6	Mrs Quilter, pure white, large	1 6
Fair Rosamond, bluish white, red bar	1 6	Mrs George Jackman, satiny white with a creamy bar	1 6
Fortunei, double, creamy white, rosette formed, sweet scented	1 6	Proteus, double purplish rose, centre lighter, an enormous flower	2 0
Indivisa Lobata, a greenhouse variety, producing clusters of white flowers during winter and spring, very beautiful...	2 0	Sir Garnet Woseley, slatey blue, with distinct bar of plum red	1 6
		Xerxes, dark violet, with crimson band	1 6

SUMMER AND AUTUMN FLOWERING CLEMATIS.

In bloom from July to October.

These flower upon the wood of the current year's growth, and should therefore be pruned to five or six eyes.

*The varieties most suitable for bedding are marked thus **

	Each—s. d.		Each—s. d.
Alba Magna, one of the finest of all the whites	2 0	Lawsoniana, rosy purple, with darker veins	2 0
*Alexandra, pale reddish violet	1 6	Madame Edouard Andre, the nearest approach to a crimson variety, flowers are of medium size, rich in colour, and very free flowering	2 0
Anderson Henryi, creamy white, large flowers	1 6	Madame Van Houtte, white suffused with a bluish or mauve-coloured tint	2 0
Beauty of Worcester, lovely bluish violet, with prominent pure white stamens	2 0	Madame Grange, a hybrid of the varieties <i>Lanuginosa</i> and <i>Jackmanii</i> , purplish-violet with red medium line	1 6
Blue Gem, pale cerulean blue, changing to a deep satiny mauve	1 6	Magnifica, purple shaded crimson	1 6
Duchess of Teck, pure white, with faint delicate mauve bar	1 6	Mrs Hope, satiny mauve, bar rather dark, highly recommended	2 0
Enchantress, new and distinct, large double white, flushed rose	2 0	Nellie Koster, white, large flower, a beautiful variety	2 0
Fairy Queen, pale flesh, with a striking pink bar in the centre of each petal	2 0	Othello, rich violet purple	1 6
Flammula, white, very sweet scented	0 9	Otto Froebel, beautiful greyish white	1 6
*Flammula Rubra Marginata, creamy white deeply margined with reddish plum, highly scented and very free flowering	2 0	Prince of Wales, deep puce purple	1 6
Gem, deep lavender blue, very fine	1 6	*Princess of Wales, deep bluish mauve, with a satiny surface	1 6
*Gipsy Queen, rich bright dark velvety purple, very attractive	1 6	*Reine Blanche, light mauve, with lighter bar	1 6
Grand Duchess, white, slightly flushed rosy, a very effective variety	1 6	*Rubella, rich velvety claret colour	1 6
Guiding Star, a fine flower of purplish hue, shaded crimson, with a longitudinal band of maroon down the centre of each petal	2 0	*Star of India, a splendid variety, colour reddish plum, with red bars	1 6
Henryii, beautiful creamy white, large	1 6	*Smith's Snow White Jackmanii, pure white, identical in habit and freedom of bloom as the well-known <i>Jackmanii</i> , but producing pure white flowers without the slightest tinge of colour	2 0
*Jackmanii, intense violet purple, of a brilliant metallic hue	1 6	Symesiana, pale mauve or bluish lavender, fine flowers	1 6
*Jackmanii Superba, an improved form of the preceding variety, the flowers being larger and deeper in colour	2 0	Velutina purpurea, blackish mulberry, very free	1 6
*Jackmanii Alba, a beautiful variety of the <i>Jackmanii</i> . The leaves and habit of the plant are identical with the old variety, the flowers are of a beautiful pure white, sometimes faintly tinged with pink	2 0	*Viticella Rubra Grandiflora, light claret, very free flowering	1 6
Lady Caroline Neville, French white, mauve bars	1 6	Viticella Alba, greyish white	1 6
Lanuginosa, pale blue, flowers large	1 6	Viticella Venosa, white and purple, very free flowering	1 6
—candida, white, slightly tinted lilac	2 0	William Kennet, large deep blue, changing lavender	1 6

And many other varieties.

CLEMATIS COCCINEA.

An attractive climber, intense vermilion colour, bright orange inside the petals. It is of neat slender growth, and quite hardy.—Strong Plants, rs. 6d. each.

CLEMATIS CRISPA.

Pretty bell-shaped flowers, borne in great profusion from June until frost; flowers are 2 inches in width and 1½ inches long, with petals well reflexed; colour a beautiful shade of lavender blue, with opaque white centre; of delightful *Bergamot* fragrance. It attains, in a good situation, a height of 10 to 12 feet, and is perfectly hardy.

Each 2s.

VARIOUS HARDY CLIMBING PLANTS.

	Each—s. d.		Each—s. d.
Ampelopsis hederacea , the old Virginian Creeper, very strong growing, and useful for covering old walls and unsightly places	1/ to 1 6	Garrya Elliptica , good winter-flowering climber, for warm wall	2 6
— Veitchii , the beautiful small-leaved, compact growing variety, which clings and does not require any nailing	1/ to 1 6	Honeysuckle , scarlet trumpet	1 6
— a few extra strong plants	2 6	— yellow trumpet	1 6
— Veitchii Purpurea , a purple-leaved variety of the preceding, similar in habit, foliage, and adaptabilities, but distinct in colour	1 6	— golden variegated	1/ and 1 6
— a few extra strong plants	2 6	— evergreen, very hardy	1/ to 1 6
— Hoggii , a variety of <i>Veitchii</i> , but stronger in growth and larger in foliage	1 6	— early flowering Dutch	1/ to 1 6
— Roylei , a distinct strong growing variety	1 6	— late flowering	1/ to 1 6
— Sempervirens , the evergreen Virginian Creeper, small pretty foliage of bright green, pretty for rockwork and warm positions	1 6	— <i>flexuosa</i> , the Chinese Honeysuckle, the best and finest	1/ to 1 6
Aristolochia Siphon (<i>The Dutchman's Pipe</i>), one of the best fine foliaged climbers, producing peculiar shaped flowers	1 6	Hop Plants	0 6
Bignonia Radicans , bright orange bell-shaped flowers	1 6	Jasminum Revolutum	1/ and 1 6
— Grandiflora , a larger form	1 6	— yellow	1/ and 1 6
Buddlea Globosa , bright yellow bell, small in size	1 6	— Nudiflorum	1/ and 1 6
Ceanothus Azureus , bright blue, the <i>Ceanothus</i> are amongst the most beautiful of our wall climbers	1 6	— Aureum , gold leaved	1/ and 1 6
— Gloire de Versailles , large light lilac flowers	1 6	<i>The last two varieties flower in winter.</i>	
— Veitchii	1 6	Jessamine , white, strong	1/ and 1 6
Chimonanthus Fragrans , winter-flowering, very sweet-scented	1 6	Lathyrus Latifolius (<i>Everlasting Pea</i>), red	0 9
Cotoneaster Microphylla , pretty close growing climber for dwarf walls, producing profusion of red berries	1 0	— pure white	1 0
Cydonia Mauleii , orange flowers, and golden fruit	1 6	Magnolia Grandiflora , extra fine plants,	3/6, 5/6, and 7 6
Escallonia Macrantha , flowers rose colour, bright shining evergreen foliage	1 6	Myrtle , double, requires warm situation, 1/6 to 2 6	2 6
— Ingramii , strong robust grower	1 6	Pyrus Japonica , very early Spring flowering wall plant, producing quantities of scarlet flowers	1 6
<i>The Escallonias are amongst the best seaside plants.</i>		— Alba	1 6
Forsythia suspensa , long drooping branches with greenish-yellow flowers, good	1 6	— Mauleii	1 6
		Passion Flower , <i>Cœrulea</i> , blue	1/ and 1 6
		— Constance Elliott , the beautiful pure white variety, very sweet and quite hardy	1 6
		Pomegranate	2/6 to 3 6
		Pyracantha , red berried, very effective	1 6
		— yellow berried	1 6
		— Lelandi , a very beautiful variety of <i>Pyracantha</i> , bearing large clusters of bright orange scarlet berries	1 6
		Vitis Coignetia , a very beautiful new vine, quick in growth, with very bold deep green foliage which in autumn turn to rich purplish crimson, altogether a desirable new climber	2/6 and 3 6
		— Heterophylla Variegata , a very neat climber, introduced from Japan	2 0
		— Purpurea , a very distinct purple-leaved hardy climber	2 0
		Wisteria Sinensis	1/6 and 2 6
		— alba	2 0
		— extra sized plants	3/6 and 5 0

EXTRA STRONG CLIMBING ROSES—see page 27.

IVIES.

We have a very fine collection of these useful evergreen climbers.

MADERIENSIS.—The best of all variegated Ivies, the foliage is bold and large, ground colour deep green, beautifully blotched with silver, quite distinct.—Each, 1/6 and 2/.

CARRIAGE OF ROSES, FRUIT TREES, ETC.

GEORGE COOLING & SONS pay carriage on all Orders for ROSE TREES (excepting Plants in Pots) of 21s. in value and upwards to any Railway Station in England, and on Orders of 42s. to Scotland and Ireland. FRUIT TREES are sent Carriage Free when the order amounts to £3 in England, and £5 for Scotland and Ireland. In all smaller orders than the above we add an extra plant or plants to compensate for carriage.

ROSES IN POTS, ORNAMENTAL TREES, SHRUBS, &c., we cannot undertake to send Free of Carriage, but will in all cases add liberally to the number ordered to compensate.

DWARF ROSES up to about 12 in number may be sent in one package by Parcels Post, and we will forward in this manner if any of our customers wish.

Customers in ordering will much oblige by giving instructions as to the most direct way of forwarding, name of station, &c., to ensure prompt delivery.

A Discount of 5 per cent allowed off all amounts above 20s. paid within 14 days' date of invoice. All Accounts due, without deductions, at Midsummer and Christmas. Post Office Orders. to be made payable to GEORGE COOLING & SONS, at the HEAD OFFICE, BATH. Cheques crossed "Prescott & Co." A remittance or reference is respectfully requested from those sending their orders for the first time.

The full price allowed for all packages if returned carriage free and in good condition within a month.

Plants will be so packed that they may stand a journey of a week or ten days without injury. Should the packages arrive at their destination during a severe frost it will be advisable not to unpack them, but to keep them cool and moist, out of reach of frost, until a change of weather takes place.

Failures sometimes take place in the removing and transplanting of all kinds of trees. This may occur through a variety of circumstances, such as severe frost and drought, cold north-easterly winds in spring, want of the usual care in planting, and other causes for which it is impossible for the nurserymen to be accountable. The greatest care is taken to supply healthy and strong plants of everything required; *and if on receipt any are broken in transit, or not satisfactory, we shall be pleased to make every compensation; but complaints received months afterwards cannot be taken into consideration.*

FOREIGN ORDERS.

We take special care in the selection of Roses and other Plants and Trees for exportation, and our system of packing has proved most successful; only well ripened plants and most suitable varieties are chosen, and every care is taken to secure their safe arrival.

FOREIGN PARCELS POST.—Parcels of Roses may now be sent by post to British Colonies and to most Foreign Countries.

N.B.—Foreign and Colonial Orders must in all cases be accompanied by a remittance; this should include sufficient to cover cost of packing and carriage when latter has to be paid in advance.
